

RhinoClean™

PRODUCT DATA SHEET

ER8550L™ Emulsion Removing Solution

Description

- Highly efficient, ready to use, Emulsion Reclaiming Solution.
- Designed for quick and convenient removal of emulsions and capillary films from screens.
- Excellent freeze/thaw characteristics.
- Ideal for use in all climates.
- Never separates out active ingredients.
- Can be used straight or mixed 1:4 with water.

Directions

1. Spray and brush the solution of ER8550L™ onto both sides of stencil, until emulsion dissolves.
2. Rinse off with high-pressure cleaner.

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
