

RhinoClean™

PRODUCT DATA SHEET

SW175™ Screen Wash Degradent

Description

- A water-soluble, multi purpose screen wash designed to work quickly on U.V. Solvent-Based, Mylar and Epoxy
- Evaporates slowly for maximum yield, while cleaning large screens without leaving any solvent residue on the screen.
- Ideal for efficient and expedient screen washing after the press run.
- Has a higher flash point than lacquer thinner, alcohols, ketones, etc.
- Recommended for manual or automatic equipment.
- Biodegradable, non-toxic and environmentally friendly.

Directions

1. To remove ink from screen images, apply SW175™ to squeegee-side of screen and wipe clean.
2. To clean screen following production run, 1) scrape off remaining ink; 2) apply SW175™ to both sides of screen with brush and wipe clean; or 3) use in automatic ink removal equipment.

It is the responsibility of the screen printer to test the product; review the MSDS prior to use to evaluate whether or not the product is correct for the application intended.
