

TS HI-TECH WHITE

APPLICATIONS

- Direct printing
- Light to dark colored garments
- Cotton/Polyester blends and 100% Polyester

FEATURES

- Great body
- Fast flashing
- Super bright
- High opacity for great coverage
- Great bleed resistance

GENERAL INFO

Hi-Tech White is our top selling high-opaque, low-bleed white. It's formulated to be extremely bright and provide the ultimate ease of printing through mesh counts up to 300 while at the same time providing unmatched bleed resistance and body characteristics that other manufacturers have failed to duplicate.

BLEED RESISTANCE – Great

OPACITY – High

STORAGE – Ideally 65 to 80 degrees F. Keep out of direct sunlight.

RECOMMENDED MESH COUNT – 86 to 300

STENCIL – Any direct emulsion or capillary film.

WET ON WET PRINTING – Can be printed wet on wet.

MODIFICATIONS – Bases and additives can be used for desired effects.

FLASH – 700 degrees F for 2 seconds, just enough so the surface is tack free.

CURING – 325 degrees F / 160 degrees C for 1 to 1 ½ minutes. Oven temp can be increased and dwell time decreased. For heat presses, use 390 degrees F / 195 degrees C for 8 seconds.

WASH-UP – Any plastisol ink cleaner.
