

TS WBF BLACK, WHITE AND BASE

APPLICATIONS

- Direct printing
- Light to medium colored garments
- Cotton, Cotton/Polyester blends and 100% Polyester

FEATURES

- Creamy body
- Extremely soft hand
- Excellent printability
- No build-up

GENERAL INFO

WBF is an extremely soft ink that's formulated to mimic the feel of a waterbase print. It's intense in color, easy to print and provides the softest feel of all our inks. When printing onto garments with the potential to bleed, a low-bleed underbase needs to be printed first.

BLEED RESISTANCE – None

OPACITY – High

STORAGE – Ideally 65 to 80 degrees F. Keep out of direct sunlight.

RECOMMENDED MESH COUNT – 110 to 300

STENCIL – Any direct emulsion or capillary film.

WET ON WET PRINTING – Should be printed last to avoid build-up.

MODIFICATIONS – Curable Reducer can be used to reduce viscosity.

FLASH – Not recommended

CURING – 325 degrees F / 160 degrees C for 1 to 1 ½ minutes. Oven temp can be increased and dwell time decreased. For heat presses, use 390 degrees F / 195 degrees C for 8 seconds.

WASH-UP – Any plastisol ink cleaner.
